*Sculpture
for the
Garden*

PAN AND
NYMPH HERMES
Wheeler Williams

Somewhere there is sculpture to fit every need — to satisfy every whim — in every garden. The difficulty is to find it. Specializing as we have in this field of American art for many years we feel that we are peculiarly well equipped to solve every problem that relates to sculpture for the garden. It is with this in mind that the accompanying brochure has been prepared. While only a small part of the works available can be mentioned in such brief space, it is hoped that the illustrations and catalog will furnish some hint that may help you in your plans for a perfect garden.
